Contents of volume 14

January 1979

January leader: Alternative technology: P E RICHMOND *1*

Physics CAL with microcomputers: M K SUMMERS *7*

Computer managed independent learning in A-level physics: MARTIN BROWN and HARRY MCMAHON *14*

Sound in the sixth: CHARLES TAYLOR *20*

Newer courses in physics *26*

The power station game: a study: J W L MILLAR *34*

Physics on stamps: Appendix IX: E J BURGE *38*

Soap films, phase changes and catastrophes: DAVID LOVETT *40*

An alternative method for solving the elementary equation for damped oscillation: J LENZ *45*

The hidden-variables controversy in quantum physics: TREVOR J PINCH *48*

C G Barkla and the J phenomenon: BRIAN WYNNE *52*

Notes on experiments: *56*

Galileo and the leaning tower: an Aristotelian interpretation: ALLAN FRANKLIN *60*

News and comment *1*, Letters *5*, Queries in physics *14*, Physics apparatus *37*, Book reviews *63*, Forthcoming conferences and courses *64*

March 1979

March leader: Do they teach physics abroad?: P J DE VRIES *65*

The role of the laboratory in physics education: B E WOOLNOUGH *70*

Practical work in the sixth form: DOUGLAS P NEWTON *74*

Lawn bowls and Newton's laws of motion: T G L SHIRTCLIFFE *78*

Mathematical modelling: a new approach to teaching applied mathematics: D N BURGHES and M S BORRIE *82*

Physics in the ionosphere: A J MURKETT *87*

The push-me-pull-you capacitor: a discussion topic: W H KING *91*

The seismic refraction technique: R A L SULLIVAN and J C HOPKINS *94*

The curriculum project: racing chariot or tumbril? JOHN COLBECK *98*

Notes on experiments: *100*

Relativistic dynamics of the Doppler effect: M N MCMORRIS *105*

History and quasi-history in physics education—part 1: M A B WHITAKER *108*

A small wind tunnel made of polystyrene: JOHN DOWNIE and FRANCIS BARNES *112*

Dimensional analysis applied to electricity and mechanics: G THOMAS *116*

Design and development of physics curricula: A J JAFRI *120*

News and comment *66*, Letters *68*, Queries in physics *97*, Film reviews *125*, Book reviews *126*, Forthcoming conferences and courses *128*

April 1979

Introduction *129*

Sandwich courses—educational advance or modern luxury? MALCOLM MANDER *134*

Courses in physics in England, Wales and Northern Ireland *139*

Courses in physics in Scotland *191*

Courses index *198*

Institution index *199*

May 1979

Albert Einstein: anniversary feature: R SCHOFIELD *206*

Einstein: a lecture on the centenary of his birth: H BONDI *208*

Recent changes in the teaching of special relativity: W G V ROSSER *213*
Special relativity and the Michelson-Morley experiment: BRYAN R CHAPMAN *217*
Albert Einstein: his life: W G V ROSSER *220*
Rates of flow: some useful equations: I S ROBERTSON *224*
Sandbox holography: D G BETTENCOURT, T L CHOW and J M GOODWIN *228*
The centenary of the fourth-power law: R C DOUGAL *234*
History and quasi-history in physics education—part 2: M A B WHITAKER *239*
Pop Physique 77: P BAUER and C BROCHET *243*
Notes on experiments: *246*
The effect of humming on vision: H A K MASTEBROEK and J B VAN DER KOOI *253*
Modular courses in technology at O-level and CSE: RAY PAGE *255*
Editorial, News and comment *201*, Letters *203*, Queries in physics *208*, Physics apparatus *232*, Book reviews *261*, Forthcoming conferences and courses *264*

July 1979

July leader: Girls in science: DAPHNE F JACKSON *265*
Girls in science: introduction: BARBARA HODGSON *270*
Girls and physics education: M B ORMEROD with JENNIFER M BOTTOMLEY, WENDY P KEYS and CHARLES WOOD *271*
Sexist bias in physics textbooks: J TAYLOR *277*
Sex differences in examination performance at 16+: JAN HARDING *280*
Sex differentials in physics education: N THOMPSON *285*
The Harris data memory: D H T MUIR and M J ELWELL *289*
Optical fibre systems—a reality at last: J E MIDWINTER *292*
Holography experiments on optical imaging: B BONCZAK and J DABROWSKI *298*
An introduction to the Poynting vector: N MORTON *301*
Notes on experiments: *305*
The use of models to teach elementary physics: BOB BULLOCK *312*
The violin and its use for student projects: C E GOUGH *318*
An experiment on the decay of ^{58}Co: K W D LEDINGHAM and A H C CALLAGHAN *322*
News and comment *265*, Letters *269*, Queries in physics *292*, Book reviews *324*, Forthcoming conferences and courses *328*

September 1979

September leader: Image and reality: J BAUSOR *329*
Practical work in physics in developing countries: B T CHADWICK *334*
The physics laboratory in Africa: P B VITTA *336*
The physics laboratory in Eastern Europe: G MARX *341*
The physics laboratory in Honduras: M A ZUNIGA *343*
Electronics and the physics laboratory in Malaysia: M I ZAWAWI *345*
Who needs laboratories?: P E RICHMOND *349*
Education through physics: R C DOUGAL *350*
Science and technological innovation: ERNEST BRAUN *353*
The development of an O-level in electronics: L G CUTHBERT *361*
The Peel Inlet-Harvey Estuary study: WARREN WALKER and RONALD BLACK *365*
Electric and magnetic forces between parallel-wire conductors: N MORTON *369*
The discovery of the Hall effect: G S LEADSTONE *374*
The prism and the telescope: J C SIDDONS *380*
Relevance of practical work to comprehension of physics: RICHARD T WHITE *384*
News and comment *329*, Letters *332*, Queries in physics *387*, Film reviews *388*, Book reviews *388*, Forthcoming conferences and courses *392*

November 1979

November leader: A question of choice: JOHN UNDERWOOD *393*
Editorial: Is it what you want? ROY SCHOFIELD *395*
Electronics: W GOSLING *400*
The nature and implications of the revolution in electronics: ROGER GIBLIN *406*
Cool?: E B MPEMBA and D G OSBORNE *410*
Mind on ice: DENIS G OSBORNE *414*
Cooler still—an answer? M FREEMAN *417*
A review of some thermodynamic properties of the van der Waals gas: C K KWOK and D R TILLEY *422*
Notes on experiments: *426*
Non-Newtonian fluids: D BELL *432*
The hairpin in the bottle: JOHN HARRIS *436*
Physics in glass technology: P W MCMILLAN *441*
The education of physics teachers in the Netherlands: JAN H RAAT *447*
Thomas Young and the theory of diffraction: N MORTON *450*
News and comment *393*, Letters *398*, Queries in physics *413*, Book reviews *454*, Forthcoming conferences and courses *456*
